PROFILE

Highly skilled Data Engineer with almost 3 years of experience at a global consulting firm in Thailand. I have proven expertise in designing, building, and optimizing ETL pipelines for clients across various industries, including banking, construction materials, and oil and gas. Proficient in Python, SQL, and Databricks, I leverage cloud platforms like Azure and GCP to implement industry best practices for quality and security. I am dedicated to using the latest technologies to deliver scalable and reliable data solutions that meet complex client needs.
